

# Apache Hosted Website Support

## Forgot password

If you have forgotten your password for one of the sites below, please contact us at [support@netic.dk](mailto:support@netic.dk) and request a new one.

## Administration of MySQL Database

You can use our phpMyAdmin at <https://myadmin.netic.dk> to access your MariaDB Database.

Username/password are the same as you use from your web software.

## FTP access

Your FTP client must be configured with the following info:

<b>Host</b>	ftp.netic.dk
<b>User</b>	user@<site>, where <site> is replaced with your hosted website domain.
<b>Password</b>	Password provided, see 'forgot password' section above.

It is possible to create DNS record for ftp. <site> to use instead of 'ftp.netic.dk'.
